Perhaps Brennan theft of eight registered mail pouches containing money and securities valued The mail pouches, with all their contents intact, had been found under the stairs of the Postoffice Building, Thirty-third Street and Eighth Avenue, concealed beneath a pile of empty sacks. Samuel M. Hitchcock, United States Commissioner, ordered Richardson's release, after a brief hearing. The chauffour had been held in \$25,000 bail.

The postal authorities have not given up their search for the thieves they are convinced contemplated eventually making off with the pouches. Assistant United States District Attorney E. Paul Yaselli said yesterday that the keys to the eight ponches had been stolen three days before their disappearance,

alarm of the thieves ever the arrest of Richardson.
Richardson, as soon as he was released, consulted with his lawyer, but he refused to discuss his arrest. He was taken into custody, the authorities said, because he had admitted that in the journey from New Jersey to this city he had twice left his mail truck unguarded—once on the ferryboat and once during his luncheon.

No explanation was offered yesterday by Postmaster Patten or other postal officials as to how it was possible for the mail pouches to remain undiscovered at the postoffice as long as they did. At Pinehurst Federal Food Board's

mistakes was asking the impossible.

Calls Closing Necessity

Continuing, he said:

"The order issued a few days ago I regard as an absolute necessity. You know, there is now a discussion to repeal or modify the Sherman anti-trust law. I am not going to offer any excuse for the railroads, they have been as so long; but the Sherman anti-trust law forbade them to do what now the Director General of Railroads has the right to do. The jam had occurred and was increasing, and something had to be done to relieve the situation. If the ley King has interfered there can be no help for that.

"I think there is one mistake in the making, and I trust it will be changed or modified. I refer to the closing of the industrial and commercial plants of our country, one additional day each week. I think it is a mistake to have a whole day, such as Monday, idle, and involving from Saturday afternoon until Tuesday morning. I believe if the order were changed so that instead of there being ten, nine or eight hours as a day's work, the same power proclaim a universal sevenhour day during the war, better results would follow.

"We would have practically the same results in the conservation of fuel and all other needful commodities. It would
